SECRET 25X1 w 2: m

5. From about 9:30 p.m. on 12 February to the morning of 13 February, large truck and tank columns passed through Laerz, coming from the direction of Neugaarz and proceeding toward Kruennel. On 13 February, during the night from 13 to 14 February, and on 14 February, other large truck and tank columns, including one of 36 heavy tanks, passed through laerz, coming from, and going to, the same directions. Between 10:30 a.m. and 11 a.m. on 13 February, four columns, each consisting of several trucks occupied by each 12 to 15 soldiers, several Dodge-type vehicles, 1 truck towing a generator and 1 truck towing a searchlight of about 2.5 meters in diameter, passed through Roebel, coming from the direction of Vipperow and proceeding to the western exit of Roebel.

25X1

Comment. The entraining of this tank detail of the 1st Mecz Div which, according to reports on transportation went to Neustrelitz, was previously reported.

25X1

Comment. The motor vehicle is believed to belong to the 34th Arty Div (US). However, there is little probability that a shipment of the division went to Ruegen. It may have been an AAA unit of the IV Arty Corps.

25X1

Comment. These shipments of units of the 25th Tank Div to Templin were repeatedly reported.

25X1

25X1

the units probably belonged to the 94th Gds Mtz Rifle Div which are fairly definitely believed to have returned to their posts from the known exercises in the Schwerin-Wittstock area.

25X1

Comment. the 9th Gds Tank Div which, from 12 to 15 February, held exercises in the above mentioned area and which were repeatedly confirmed.
